But this reflects more the urgent lack of systemic regional studies of East Asia than it does any sense on my part that the regional-global or domestic-international nexuses are unimportant. Alice D. Since International Relations study the diplomatic and strategic relations between or among states, cross-border transactions of all types and the multiple dimensions of contemporary globalization, it can contribute to building solutions for the new challenges of the twenty-first century, in other words, it can help promoting collective responses for problems that affect us all and for which there is no solution unless the international community joins forces, because the discipline has the potential to develop

new knowledge about the political, economic and social dynamics of the present world. Oxford:OxfordUniversityPress, The core chapters of the book consider all of these each in turn. Beginning in the late s the trajectories of IR scholarship in Asia and the West began to converge in substance and methodology.
