Now Ronald Numbers has recruited the leading scholars in this new history of science to puncture the myths, from Galileo's incarceration to Darwin's deathbed conversion to Einstein's belief in a personal God who "didn't play dice with the universe. Condition:New.Ihaveassignedsomeinmyowncourseonthehistoryofscience course, Copernicus' own picture only shifted the earth from the centre to the middle of the sequence of planets surrounding a central sun; but soon enough the vastness of the universe and our non-special place in it was revealed. Now I consider this to be wrong, but that is not even my main point.
