Danny Proulx. They can be repurposed in so many ways within your garden.

It features an innovative design that allows it to be used either horizontally or vertically. Submersible Pond Pumps Submersible pond pumps are a great choice for almost any type of pond or water feature, but they work best in smaller ponds up to 1, GPH. Submersible pond pumps are also very compact, which makes the perfect choice for indoor aquariums. This pump is a good choice for those with ponds that have a smaller waterfall of five feet in height or .

Look into the realistic 'ponds' with rocks and fish. It has a cage protecting the pump is because your pump generally sits at a low point in your pond, so to perform any maintenance to it you would have to reach down to this point and manually remove your pump.
